## Transferring Downloaded eBooks to a Portable Device

If you have downloaded an eBook into your computer for reading in “Offline” mode via Adobe Digital Editions, you may transfer it to a supported eReader device.

**Before transferring an eBook, you will need the following:**

6. A Portable eReader supported for eBooks on EBSCOhost – a list of supported devices is available at: <http://www.adobe.com/products/digitaleditions/devices>
7. Adobe Digital Editions installed on the computer <http://www.adobe.com/products/digitaleditions/#fp>
8. A Valid AdobeID – This may be created for free on following address: [https://www.adobe.com/cfusion/membership/index.cfm?nf=1&nl=1&loc=en\\_us](https://www.adobe.com/cfusion/membership/index.cfm?nf=1&nl=1&loc=en_us)

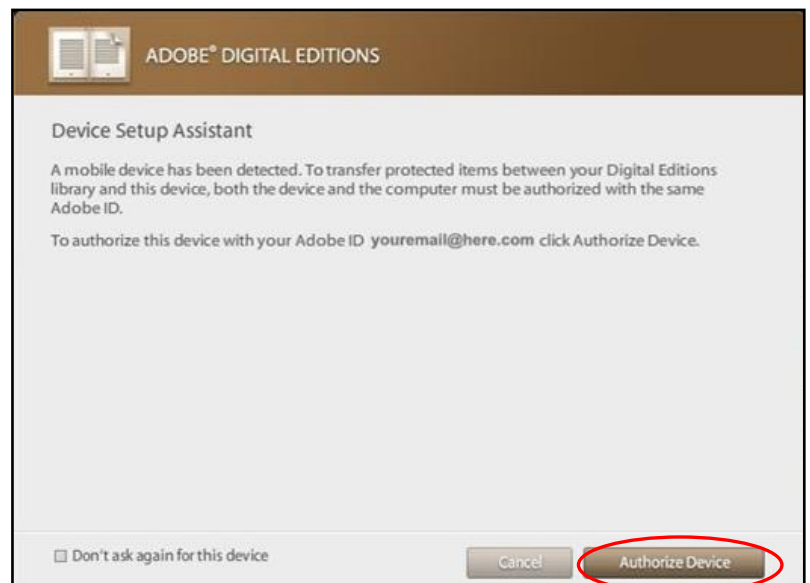

**To transfer an eBook from Adobe Digital Editions to your portable device:**

1. Open your downloaded eBook in Adobe Digital Editions. If you have not authorized Adobe Digital Editions with your Adobe ID on this computer, you will need to complete that step first. You will be prompted to enter your Adobe ID and Password the first time you try to open an eBook with Digital Editions on your computer.
2. Connect your portable device to your computer with a USB cable.
3. Turn on the eReader. If the reader offers an option to Recharge or Connect to the computer, choose the “Connect” option.

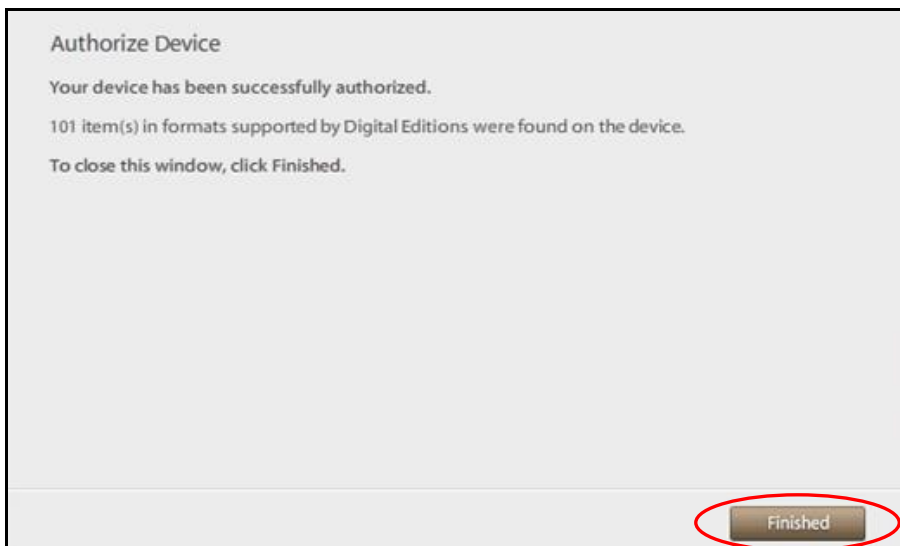

4. Open Adobe Digital Editions – it automatically detects the presence of your device and offers to authorize it with your Adobe ID.

Just as the Adobe Digital Editions software must be authorized with your Adobe ID, the portable device must also be authorized to be able to transfer protected content to and from the device.

5. Click **Authorize Device** in the resulting window (at right).

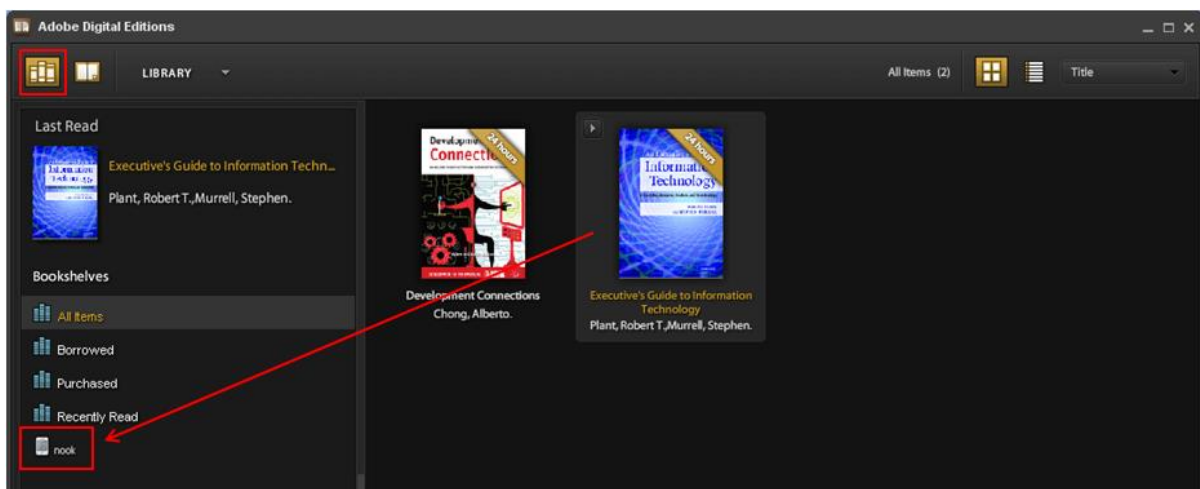

6. Click **Finished** after your device is authorized.

7. After authorization, the device appears as a new bookshelf in your library. Transfer items to and from the device bookshelf by clicking on the book title, then dragging and dropping the title into the device bookshelf.
